Introductions

Revised Multi-County Service Provider document

Members present reviewed the revised document and had a detailed discussion on all three Models. The group unanimously agreed on proposing Model 3. This model would provide the most standardized approach to the medical control of air transport services. This model will be discussed with EMSA Administration prior to the main Task Force meeting in June. See attachment for revised documents.

Air Provider Data Set

A revised Data Dictionary (attached) was provided based on feedback from the March meeting. The dictionary is divided into:

- CEMSIS Data Elements with Air Transport Use Modifications
- NEMSIS Data Elements with Air Transport Use Modifications
- Additional Data Elements for Air Transport Use (not found in CEMSIS or NEMSIS)

Discussion was tabled until the next meeting.

Air Provider Quality Indicators

A packet of information on QI (attached) was provided including:

- CAMTS Quality Management Chapter
- California Code of Regulations, Title 22, Chapter 12
- California QI Guidelines

Discussion was tabled until the next meeting.

Next Meetings:

Main Task Force Meeting with time for group meetings

June 18, 2008 at Los Angeles County Camp 2

Group II Meeting

July 22, 2008 Sacramento

October 30, 2008 Southern California
